NG GLOBAL ENERGY SOLUTIONS: DRIVING ENERGY EXCELLENCE AND RESOURCE DEVELOPMENT

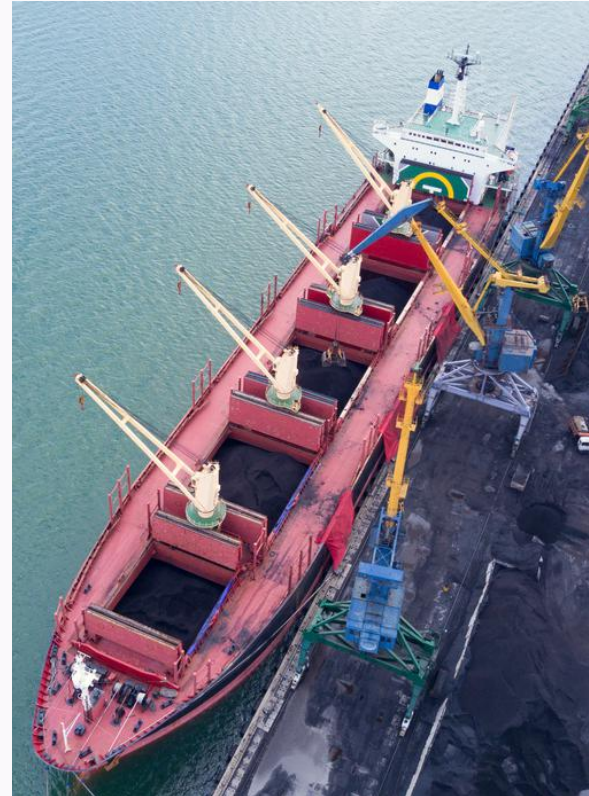

Since 2017, NG Global Energy Solutions has built a reputation as a South African leader in energy and commodity supply. As a Level 2 B-BBEE company, it specialises in delivering high-quality coal, manganese, iron ore, and vanadium to industries worldwide. With a strong focus on junior mining initiatives, NG Global is shaping the future of resource development and sustainability.

INTEGRATED EXPERTISE FOR END-TO-END SOLUTIONS

We offer comprehensive supply chain management, ensuring efficiency from sourcing to delivery. The company's expertise in road, rail, and sea logistics, combined with seamless FOB and CFR shipment coordination, guarantees cost-effective and timely delivery for clients across the globe.

GLOBAL PRESENCE, LOCAL IMPACT

Having exported over 8.5 million metric tons of coal through major ports like RBCT, Durban, and Maputo, NG Global supports industries in: South Africa, Europe, India, Pakistan, China, Kenya and Djibouti

FOCUSED ON JUNIOR MINING DEVELOPMENT

NG Global Energy Solutions is a key player in junior mining, driving growth in South Africa's Northern Cape and Mpumalanga regions. Through pioneering projects, the company is unlocking the potential of critical minerals such as manganese, vanadium and rare earth elements ensuring sustainable development and fostering local economic progress. These projects not only enhance the global supply of essential minerals but also reflect NG Global's commitment to responsible mining practices and community upliftment.

ENSURING EXCELLENCE FROM PIT TO PORT, EVERY STEP OF THE JOURNEY.

We pride ourselves on delivering seamless and reliable logistics solutions that uphold the highest standards of quality and efficiency. From sourcing coal at the pit to ensuring its safe and timely delivery at the port, we are committed to excellence at every stage. Our integrated approach combines a dedicated team, and a commitment to sustainability to optimise the entire supply chain. By prioritising safety, precision, and customer satisfaction, we ensure that every journey is executed with the utmost professionalism, reinforcing our reputation as a trusted leader in the coal transport industry. With our own fleet of side tipper links - Nyiko Transport. Coupled with rail and port allocations.

INTEGRITY

QUALITY

RELIABILITY

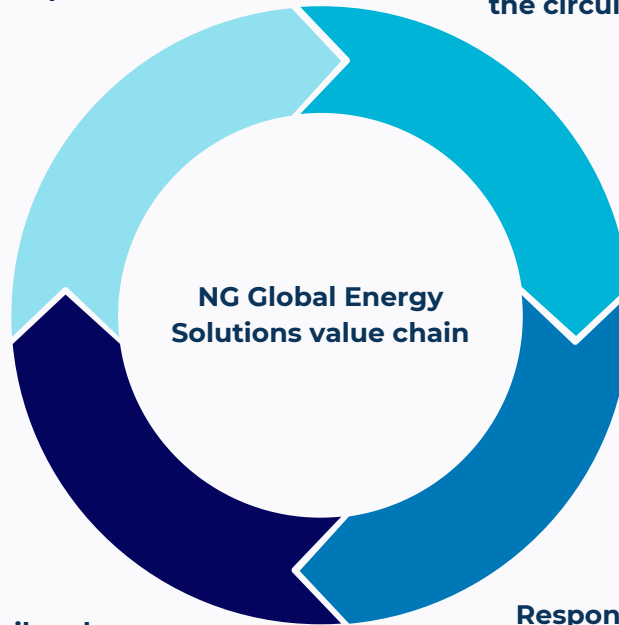

COMMITMENT TO SUSTAINABILITY

Driving resource efficient production

Connecting supply & demand in the circular economy

Distribution via road, rail and sea

Responsible sourcing & use of resources

COMMITMENT TO CRITICAL MINERALS

Recognising the vital role of critical minerals in industrial processes and the energy transition, NG Global is dedicated to their efficient delivery. Key highlights include:

- **Manganese:** Junior mining initiatives in the Northern Cape are driving local development and strengthening international supply chains.
- **Rare Earth Elements:** Dedicated to advancing sustainable solutions, the company plays a pivotal role in the sourcing and supply of critical elements for global industries.
- **Vanadium:** Strategic investments in SPR Vanchem bolster NG Global's role in energy storage innovation and high-strength steel production.

SUSTAINABILITY AND INNOVATION AT THE CORE

NG Global Energy Solutions embraces sustainable practices across its operations. From mining to logistics, the company prioritises environmental responsibility, safety, and customer satisfaction, contributing to the circular economy and reducing its ecological footprint.

A VISION FOR GROWTH AND IMPACT

We are redefining energy and commodity supply through its focus on junior mining, critical minerals, and sustainable practices. With a track record of reliability, quality, and global reach, the company empowers industries to thrive in an evolving energy landscape.
